***ABSTRACT***

*PT Alpen Food Industry or also known as Aice Group Holdings, is a company engaged in the production of food in the form of ice cream, with the trademark Aice. This research is a quantitative study using a purposive sampling method to collect data by distributing questionnaires to 100 respondents who have bought or consumed Aice products from PT Alpen Food Industry at Aunt Ida's wholesaler in Bandung City. Data analysis used was validity test, reliability test, classical assumption test, multiple linear regression analysis, correlation coefficient R, coefficient of determination  $R^2$ , F test and T test. The program used to analyze the data used the Statistical Package for Social Sciences (SPSS) Version 25. This study resulted in the final conclusion that the variable product quality, product diversity and product packaging have a positive and significant influence on purchasing decisions of Aice ice cream (Case Study on Tante Ida Wholesale in Bandung City)*
