ABSTRAK

Tujuan dari penelitian ini adalah untuk mengetahui perkembangan *Non Performing Financing (NPF) Murabahah, Musyarakah, Return On Asset (ROA)* dan untuk mengetahui pengaruh *Non Performing Financing (NPF) Murabahah* dan *Musyarakah* Terhadap *Return On Asset (ROA)* pada PT. Bank Mega Syariah.

Metode yang digunakan adalah metode deskriptif dan metode verifikatif. Data yang digunakan dalam penelitian ini diperoleh dari data Laporan Keuangan Tahunan PT. Bank Mega Syariah periode 2009-2013. Analisa data yang digunakan dalam penelitian ini yaitu pengujian asumsi klasik (uji normalitas, uji multikolonieritas, uji heterokedastisitas, dan uji autokorelasi), persamaan regresi linier berganda, koefisien korelasi, koefisien determinasi, uji t (uji parsial) dan uji F (uji simultan).

Hasil penelitian ini memiliki persamaan regresi linier berganda $Y = 0,819 - 0,429 X_1 + 0,222X_2$, nilai korelasi sebesar 98,1% yang menunjukkan hubungan yang sangat kuat antara NPF *Murabahah* dan NPF *Musyarakah* Terhadap ROA. NPF *Murabahah* tidak berpengaruh signifikan terhadap ROA secara parsial. Serta NPF *Musyarakah* berpengaruh positif dan signifikan terhadap ROA secara parsial. NPF *Murabahah* dan NPF *Musyarakah* mempengaruhi ROA secara simultan sebesar 96,3 % sedangkan sisanya sebesar 3,7% dipengaruhi oleh faktor lain yang tidak diteliti.

Kata kunci: *Non Performing Financing (NPF) Murabahah, Non Performing Financing (NPF) Musyarakah, Return On Asset (ROA)*

**Influence Of Non Performing Financing (NPF) Murabaha and Musharaka
On Bank Profitability
(Case Studies at PT. Bank Mega Sharia)**

ABSTRACT

The purpose of this study was to determine the development of Non Performing Financing (NPF) Murabaha, Musharaka, Bank Profitability and to investigate the influence of Non Performing Financing (NPF) Murabaha and Musharaka On Bank Profitability at PT. Bank Mega Sharia.

The method used is descriptive method and verification method. The data used in this study was obtained from the data of the Annual Financial Statements PT. Bank Mega Sharia period 2009-2013. Analysis of the data used in this study is the classic assumption test (normality test, multicollinearity, heteroscedasticity test, and auto correlation test), multiple linear regression equation, correlation coefficient, determination coefficient, t test (partial test) and test F (simultaneous test).

The results of this study have multiple linear regression equation $Y = 0,819 - 0,429 X_1 + 0,222 X_2$, the correlation value of 98,1%, which indicates a very strong relationship between the ratio of NPF Murabaha, NPF Musharaka on ROA. Ratio of NPF Murabaha no significant effect on ROA partially. And NPF Musharaka positive significant effect on the ROA partially. Ratio of NPF Murabaha and Musharaka On ROA simultaneously by 96,3% while the remaining 3,7% is influenced by other factors not examined.

Keywords : Non Performing Financing (NPF) Murabaha, Non Performing Financing (NPF) Musharaka, Return On Asset (ROA)
